

Design Mirror Mira

Installation Manual

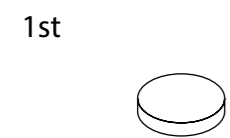

Screw

Plug

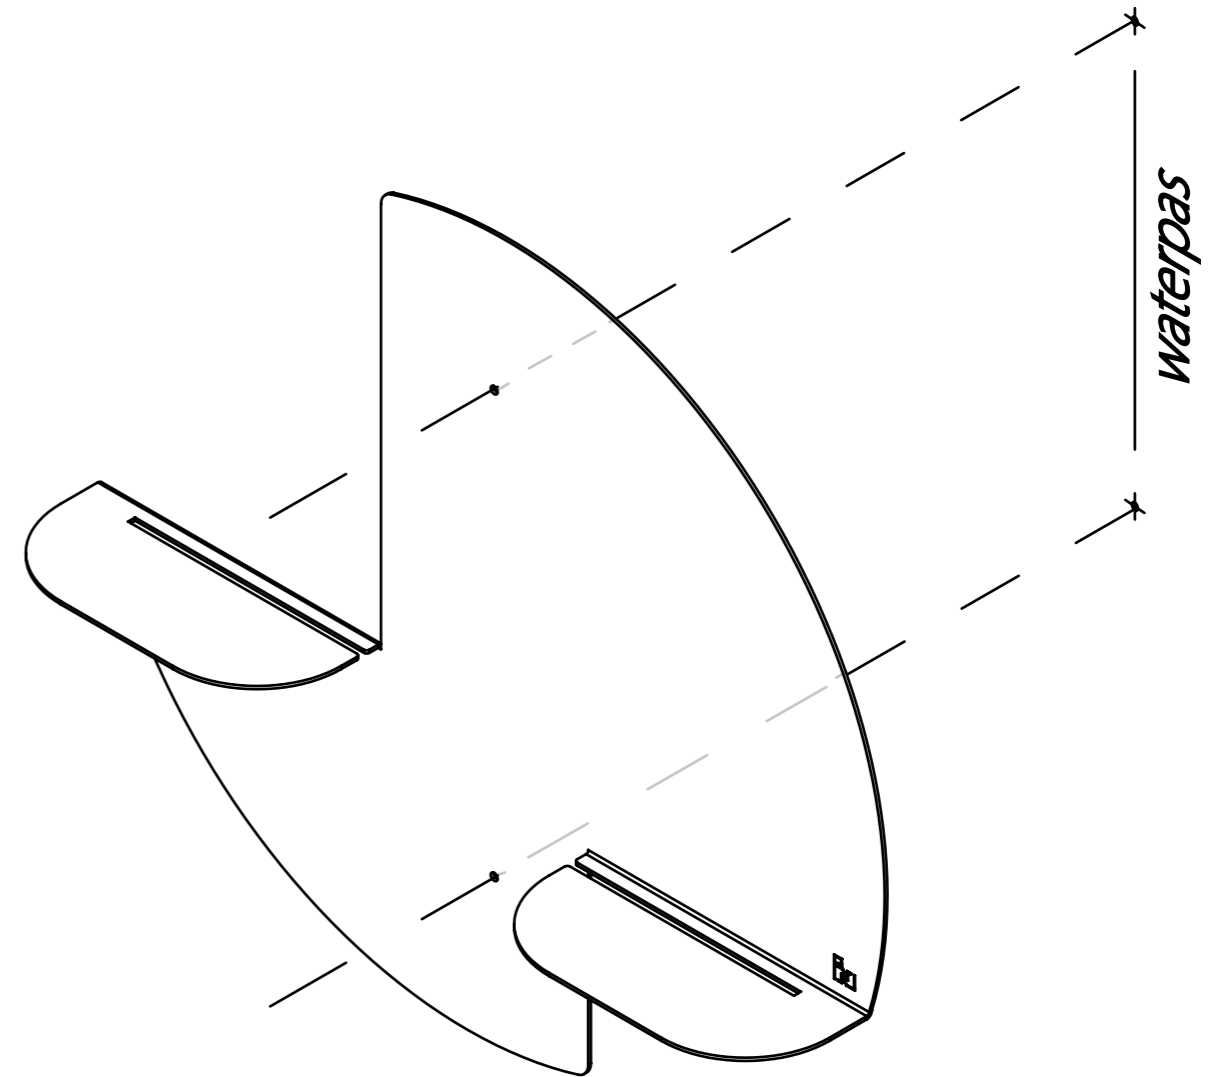

Magnet

Magnetic plate

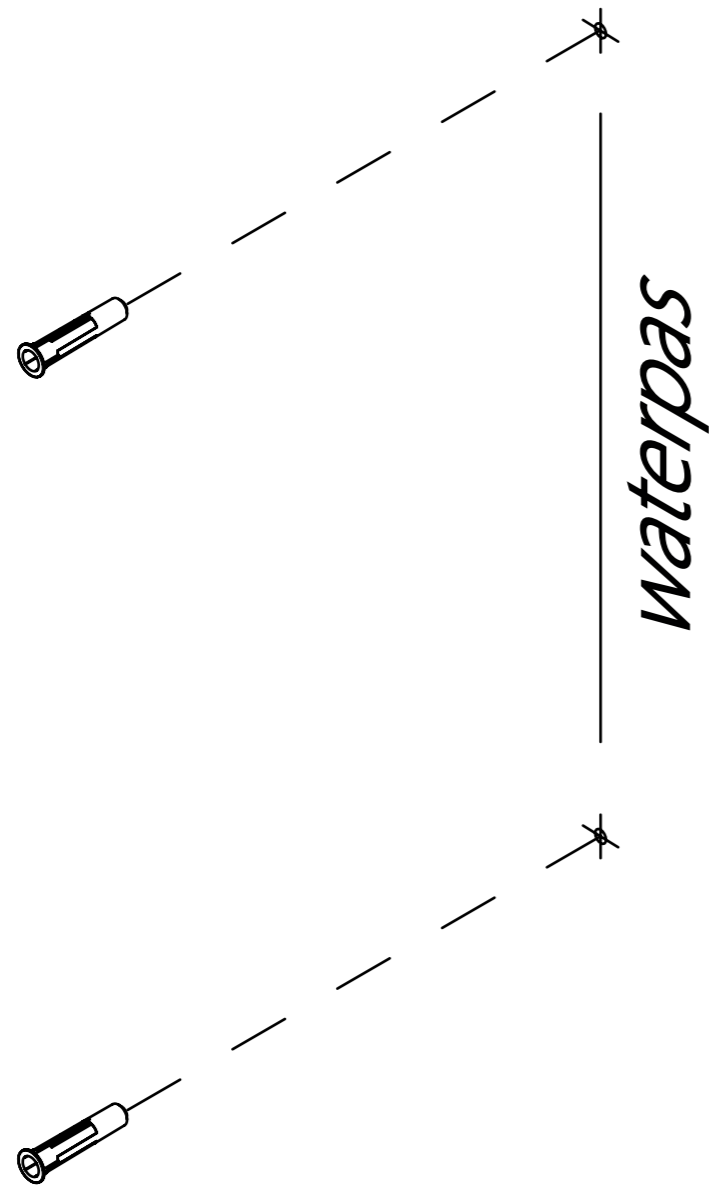

Supplies

- Pencil
- Level
- Impact drill
- Masonry drill Ø6mm
- Screwdriver

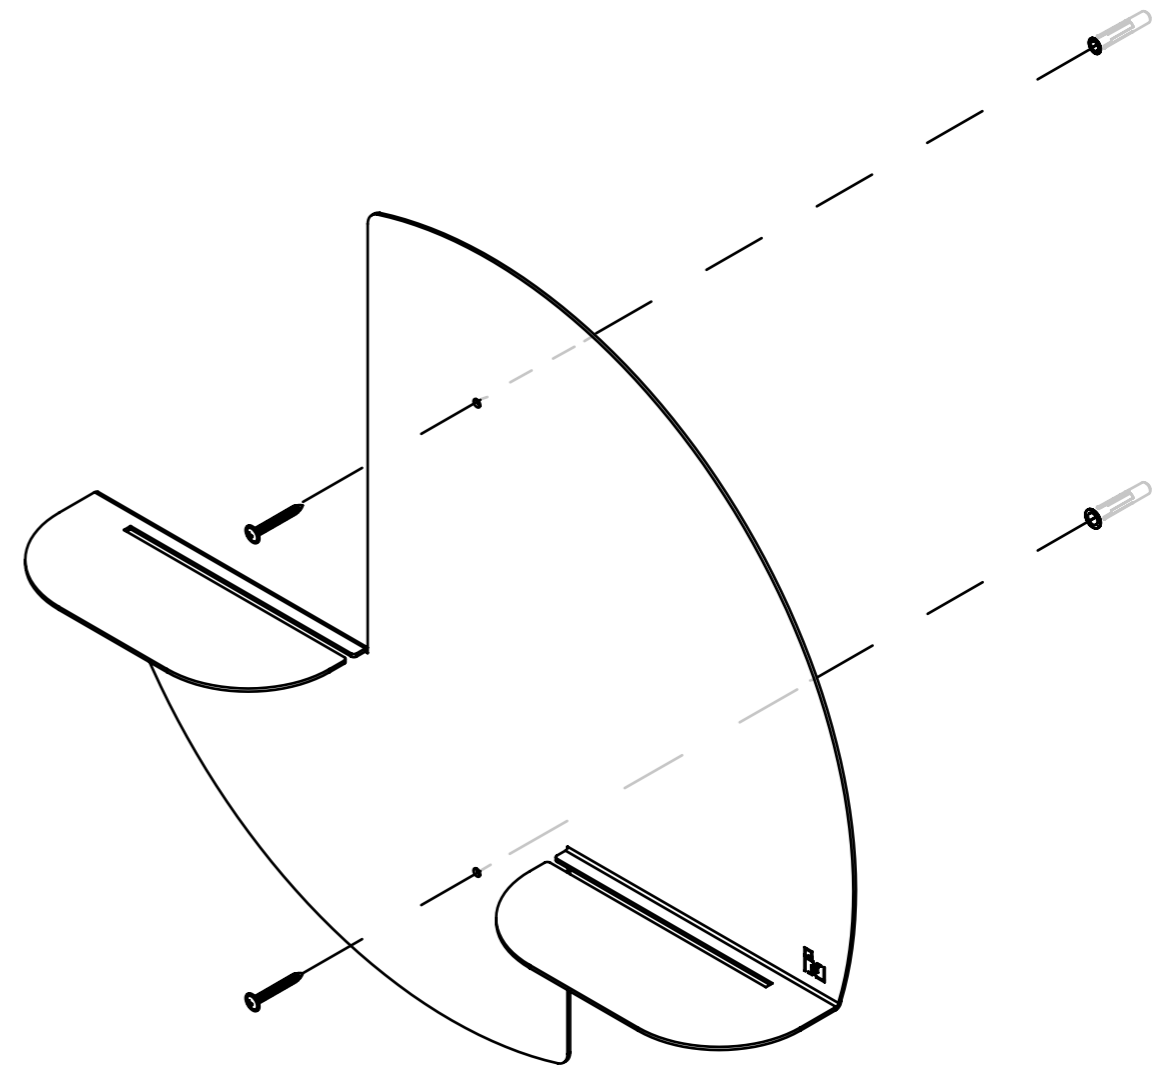

Mark the holes horizontally on the wall and pre-drill them with a Ø6mm drill bit.

02| Add plugs

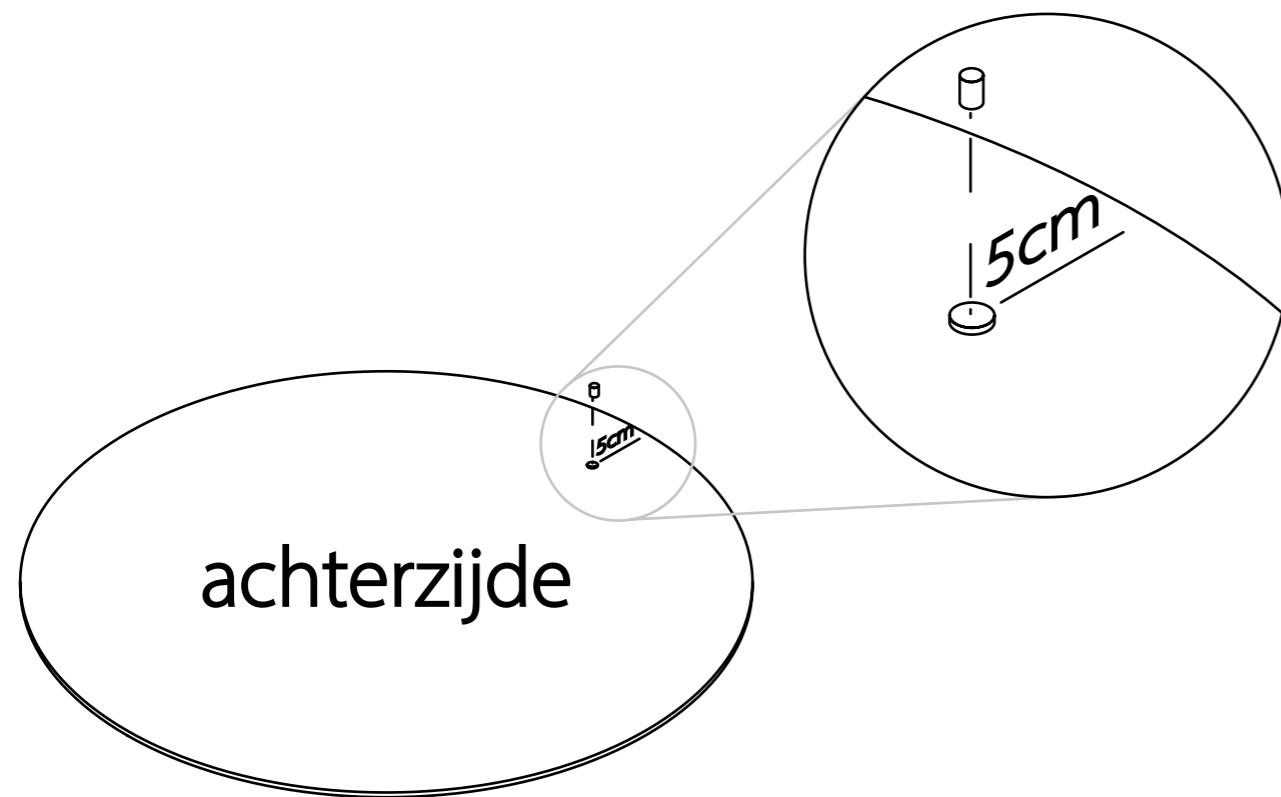

Place the supplied plugs in the pre-drilled holes and tap them carefully.

03| Attach steel to the wall

Fix the steel to the wall with the supplied screws.

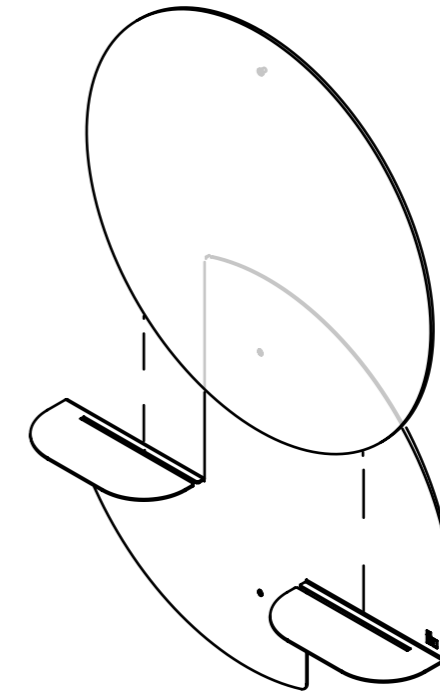

03| Add the magnets

Place the mirror with the mirror side down on a soft surface and stick the magnetic plate about 5 cm from the edge.

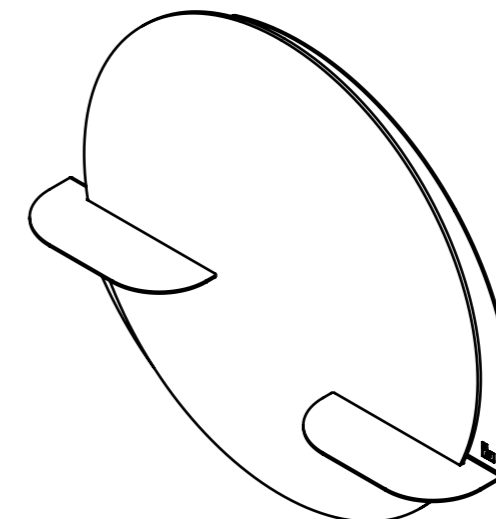

Then place the magnet on it.

04| Install mirror

Carefully place the mirror with the magnet at the top in the slots.

Then carefully press the mirror against the steel until the magnet "clicks" into place.

Thank you for your purchase!

Have fun with your mirror Mira
